## Heavy Duty Safety Switches

Type 4/4K \& 12 with Viewing Window

## Description

30-600A, 3-pole 600V max. in fusible and non-fusible versions in Type 4/4X stainless steel and Type 12 enclosures.
All allow viewing of visible blade position. $30-200 \mathrm{~A}$ also allow viewing of indicating type fuses.

## Features

- Rugged installer-friendly enclosure design features a gasket flange with continuously welded seams
- Tool-free cover latches
- Two, three and four point mounting
- Metal handle with large insulating grip features a positive stop in both ON and OFF position
- Ground lugs provided as standard
- Type 12 enclosures are fabricated from galvanized steel and are also rated for 3R/3S outdoor applications
- Type 4X stainless steel switches (30-200A) are 304 grade stainless steel and are provided with stainless steel interior parts
- The widest range of accessories available including $200 \%$ neutrals, gold plated PLC auxiliary contacts and isolated ground kits

[^0][^1]
[^0]:    (1) 200 A switches are also rated 600 V DC.
    (2) Maximum HP ratings listed apply only when time delay fuses are used.
    (3) Also rated for Type 3S/3R application. Factory provided drain plug must be removed from the bottom of the enclosure for type 3S/3R application

[^1]:    (4) Suitable for use as service equipment when neutral is bonded to the enclosure.
    (5) 600 V DC horsepower rating shown requires (2) poles to
    be connected in series.
    (6) 304 grade stainless steel.

    * Consult Siemens representative.
